Subject: PLEASE BAN GLYPHOSATES
Date: Thursday, June 15, 2017 1:00:07 PM

As a citizen of America and resident of California, it's time to stand up to Monsanto and it's class of Ready-Round-Up harmful bee-killing cancer causing toxic products.
If we can't ban it everywhere as it should then at the least we can do our part to ban it in California and send MonSatan a clear message, your days are numbered and the days of your business model hurting us all, the kids and the environment that WE ALL DEPEND ON is over or at least should be.

Simply put also, no bees means no food means in the end our future or that of our children's future will be in peril

It's time to look out for generations to come, BAN CANCER TO THE PLANET

THANKS

Remy
